ETHICS

Having lovely products is great but we want our customers to have additional reasons to go home with one of our beautiful items. We need them to feel confident in their purchase. It's a team effort across continents that makes it work from creation to end product.

- ⇒ Our products are hand-made under fair trade guidelines.
- ⇒ All products are made from 100% organic wool.
- ⇒ Our dyeing plant uses recycled water, so precious clean water is not taken from the local community and the dye chemicals are not released into the eco system.
- ⇒ Our manufacturing team has a predominately female workforce. The ladies can be in the workshop or work from home, giving them greater flexibility to balance their income with their family's needs.
